1

Place the Top Frame (A). Upside down on a soft and clean surface. Screw in 4 of the pillars (B) into the 4 corners of the top frame (A). Do not overtighten.

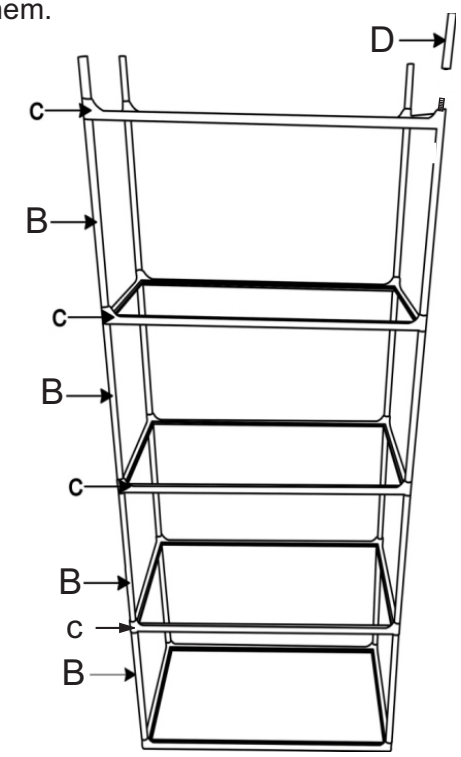

2

Attach one of the shelves (C) onto the other end of the 4 pillars (B) that were just screwed in. Take 4 more pillars (B) and screw them into the 4 corners of the shelf (C) that you just attached. Do not over tighten. Repeat this step until all the shelves (C) and all pillars (B) are attached.

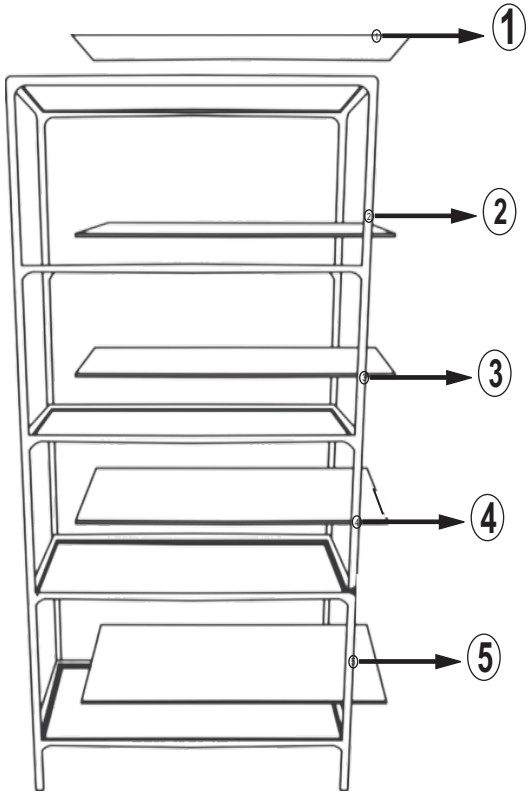

3

Screw in the 4 Feet (D) into the 4 corners of the last shelf (C) that was attached. Do not over tighten them.

4

Turn the bookshelf upright. Place the Glass (E) onto the 4 shelves (C) and the Top Frame (A). This product may require periodic tightening. Attach the Anti-tip kit provided to prevent any tipping over.

5

Place the bookshelf in the place where you will use it. We'd love to see it- just tag us (we're @safavieh) and use the hashtag #safavieh on instagram!
